

Michigan e-Transcript Initiative Information for Students/Alumni

Overview

This document provides students and alumni of high school or postsecondary institutions a general introduction to the Michigan e-Transcript Initiative and the Docufide Secure Transcript™ service offered at their school.

Michigan e-Transcript Initiative

The State of Michigan's Center for Educational Performance and Information (CEPI) has partnered with Docufide, Incorporated to offer the Michigan e-Transcript Initiative. Under this initiative, Docufide supplies electronic transcript exchanges through its Secure Transcript™ service. The State of Michigan provides this program to all public and private/independent Michigan high schools and postsecondary institutions at no cost to either the students or the schools. The FERPA-compliant (Family Educational Rights and Privacy Act) service allows a student or alumni to send a transcript and other supporting admission documents from his/her high school or college to more than 4,000 other colleges and universities nationwide, as well as to third-party destinations.

Docufide

Docufide is the leading provider of educational records management services. Its flagship service, Secure Transcript™, manages the ordering, processing and secure delivery of student records for K-12 and postsecondary institutions nationwide. Docufide, Incorporated is headquartered in Los Angeles, California, with representatives throughout the United States.

Benefits of the Docufide Secure Transcript™ Service

- The request process is streamlined for both current and alumni students.
- All Michigan public universities, community colleges, and several independent colleges have signed up to receive electronic transcripts through this service.
- Transcripts can be requested online 24 hours a day/seven days a week through the school's Web site or the Michigan College Access Portal (MichiganCAP).
- There is no charge to have transcripts sent to participating colleges in Michigan and partner states.
- Students are automatically notified when transcripts are processed and received, reducing anxiety.
- Transcripts are quickly delivered to Michigan and nationwide colleges and scholarship programs.
- Transcripts are processed electronically for your school for delivery to any destination nationwide.

How the System Works

- To send a transcript, a student or alumni goes to the Michigan E-Transcript link on his/her school's Web site or the Michigan College Access Portal (MichiganCAP), completes a one-time five-minute registration and identifies the desired transcript recipient(s).
- The system promptly processes the order and notifies the sending school's administrator of the request via e-mail. The sending school's administrator retrieves the student's transcript from the school's student information system and "prints" it to Docufide's Secure Transcript™ printer. Docufide then delivers the transcript to the receiving destination(s) in the acceptable format for the receiving destination.
- The receiving destination is notified via e-mail that a transcript is available for download (if an electronic recipient). The receiving destination's administrator logs into the Docufide system and downloads the transcript. If the receiving destination is not yet an electronic recipient, the transcript is delivered via US mail and instructions are provided for how to become an electronic recipient.
- The requester is notified via e-mail every step of the way: 1) when his/her transcript request is received by Docufide, 2) when the sending school's administrator process the request and 3) when the receiving destination's administrator downloads the transcript.

Services Available to Students/Alumni

- The Docufide system keeps track of all transcripts you send throughout your college and career path.
- You have the opportunity to request your current transcript or the final transcript.
- You receive a confirmation of all transcripts requested.
- A Student Tab is available in the Docufide system to enable you to update your information as needed throughout your college and career path.
- The Docufide system provides online training at your fingertips to help you every step of the way when requesting a transcript.
- Docufide provides you the opportunity to import your college application ID directly onto your transcript, which enables the receiver to match up incoming documents.
- The database of electronic recipients is searchable and up-to-date. This means that you do not need to know the address of the receiving destination.
- You can send transcripts to non-registered destinations. However, a fee is applied. This fee needs to be paid via credit card, debit card or cash card (cash cards are available at most local grocery stores and pharmacies). Please consult with your school on how to handle fee-generated requests.

Tips

- Complete the five-minute student online registration as soon as possible. Doing this task now will save time when making your first e-Transcript request.
- Make certain that the information entered during the online registration is accurate. It is important that you enter your first and last name as they would appear on your transcript, which will enable Docufide to easily match up your online request with the transcript Docufide receives from your school.
- Look for the Welcome Message upon log in. Your school has the opportunity to post information regarding procedures specific to the school, such as how to handle fee-generated destinations, why a hold on a transcript may occur and the dates when the staff will not be available to process transcripts.
- Know the school's policy on sending transcripts to fee-generated destinations. This information may appear in the Welcome Message, in the student handbook and/or in the guidance counseling office. Know the policies and how to implement them.
- View the Student Tab feature in the Docufide system. Make sure information is up-to-date and know the procedure for how to update it. If your information is not up-to-date, this may delay transcript processing.
- Make sure you become familiar with the destination selection buttons, the FERPA agreement acceptance, the fee collection screen (if fees apply) and the confirmation page. Selecting "Other Destination" when the destination already appears in Docufide's searchable database will incur fees.
- Remember to use the Application ID feature when requesting a transcript. The potential benefits of importing this ID into the online field are: 1) helps ensure a complete admissions submission and 2) a faster admission notification.
- Make sure a transcript was requested for those postsecondary institutions, scholarship funds, or employers that require one well in advance of the submission deadline.
- Remember to keep an eye out for the e-mail notifications that you will receive. These notifications provide information to you each step of the way.
- Make sure you can locate the Transcript ID Number on the Order Status screen. This number is to be used for any inquires pertaining to that transcript request.

Contact Information

If you have questions about the approval of your transcript request, contact the school. If you have questions about the receipt of a transcript sent by mail, contact the destination it was sent to. For all other questions, please visit Docufide's [customer support page](#).

Requesting a Transcript

Step 1: Students and alumni will go to their school's Web site, find the Michigan e-Transcript link, and click on it. Look for the link on the homepage, guidance counseling page, and perhaps the alumni page.

Step 2: A simple five-minute registration must be completed by the student or alumni to set up an account, and only has to be completed one time. This one-time registration gathers basic student information to enable Docufide to match a student's or alumni's request with the transcript data Docufide receives from the school. Through this account, students can track the transcript requests they have made throughout their educational career.

A screenshot of the Docufide registration form. The form is titled "Docufide" at the top left. Below the title, there is a "Registration" tab and a "Help" link. The main heading is "CREATE ACCOUNT & PASSWORD". Below this, there is a note about creating an account and a link to log in. Two radio buttons allow the user to select if they are registering on their own behalf or on behalf of a minor. The form is divided into three sections: "PERSONAL INFORMATION", "CONTACT INFORMATION", and "LOGIN INFORMATION". Each section contains various input fields for personal details, contact information, and login credentials, with asterisks indicating required fields.

Step 3: Click on the Academic Destinations tab to search Docufide's database all colleges and universities nationwide. Multiple destinations can be searched and selected. Searches can be performed on the name of the destination, the city, state, and/or country. Simply click on the box next to the desired destination to select that destination as a recipient of the transcript.

The National Collegiate Athletic Association (NCAA), Common Application, Student's Address and Other Destinations are also eligible recipients of the transcript. To send the transcript to one of these destinations, select the appropriate tab and then check the box to select it as a destination.

Select Destinations

Select the recipients of your transcript from Portage Central High School.

Academic Destinations

Search for colleges and universities and other academic institutions, such as scholarship funds. If you cannot find your institution in your initial search, try entering fewer characters such as "harvard" rather than "harvard university".

If you still cannot locate the institution, select **"Other Destinations"** to provide an electronic or paper address for the destination.

Step 4: After all the desired destinations have been selected, review the destinations and confirm that the selections are correct:

- The first column will display the selected destinations, with an option to remove that destination from the order. Below the name will be the delivery method (electronic download for registered recipients and US mail for non-registered recipients when the transcript must be printed and mailed by Docufide). Express delivery (for mailed transcripts) is available.
- The second column will display the transcript type. The grading period that the transcript is to reflect is an available option.
- The third column provides the opportunity to import the college application tracking number. Colleges and universities highly recommend importing the application tracking number if known.
- The last column will display the fees, if any.
